

DELIVERY

The terms of delivery of goods depend on the address of delivery, dimensions, weight of goods and the total amount of the order. All conditions are previously agreed with each client individually for each individual order.

If for some unforeseen reasons the supplier cannot deliver all the goods ordered by the buyer then he immediately notifies the buyer about this. In this case depending on the desire of the buyer the following solutions are possible:

- expectation of the appearance of the necessary goods from the supplier and transfer of the delivery date of the entire order for no more than 14 days;
- replacement of missing goods with another goods;
- removal of this goods from the order;
- canceling the delivery of the entire order.

When acceptance of goods the buyer is obliged to check the goods for damage and immediately notify the seller if the damage is detected.

The remaining conditions of delivery of goods are stipulated and reflected in the contract between the buyer and seller.
